PROFESSIONAL SUMMARY

Frontend Engineer with 5 years of experience building scalable, high-performance web applications using React, Next.js, and TypeScript. Skilled at translating business requirements into robust, maintainable, user-centric interfaces, applying strong architectural, security, and performance best practices. Proven track record owning frontend modules end-to-end across regulated industries (security, government, education). Quick to adapt to new technologies and agile environments, both independently and as part of cross-functional teams.

PROFESSIONAL EXPERIENCE

Frontend Developer | GSE — Electronic Security Management 2023 — 2026

- **Guarda / SICOV** — Built the frontend module for issuing legal firearm-possession certificates, ensuring traceability and regulatory compliance for a government-grade system, all the project was made with React 18, JS, Material UI, Redux Toolkit, webpack and migrated to Vite.
- **Aulapp CEAS** — Developed the frontend platform for automotive training centers, enabling digital issuance of training certificates for drivers and instructors. React 18 and migration to 19, Vite, Material UI, Redux, Vitest, React Testing Library, JS migrated to Typescript.
- **Aulapp CIAS** — Implemented an educational platform for traffic offenders, streamlining user flows for high-volume, compliance-sensitive processes. React 18, Vite, Material UI, Redux.
- **Agendamiento / Cancillería** — Developed the appointment-scheduling system for Colombia's Ministry of Foreign Affairs, ensuring stability and uptime on a high-traffic public platform. React 18, Vite, Material UI, Redux.
- **BeMyself** — I built the frontend for a platform managing digital credentials (e-cards) and electronic document signing using React, Redux, RTK, Material UI, and Vite, Vitest, React Testing Library prioritizing the security and integrity of sensitive data.

TECHNICAL STACK

- React 18/19 • Tailwind CSS • PostgreSQL • Hermes • Next.js • Material UI • SQL / SQLite • Obsidian
- TypeScript • Shadcn/UI • Firebase • Linux • JavaScript (ES6+) • Sass • Firestore • Axios
- Astro • HTML5 / CSS3 • Supabase • OpenCode • Redux / RTK • Three.js • Azure • Python • FastAPI
- Zustand • Husky • Git / GitHub • Zod • Node.js • GitHub Actions • Claude • Open Design • Vite • Docker
- Scrum • Handy • Postman • Bruno • Vitest • React Testing Library

PERSONAL PROJECTS

- **RecetasIA** — AI-powered conversational recipe generator. Chatbot acting as a virtual chef that saves favorite recipes and suggests dishes based on available ingredients. Typescript, TanStack, Tailwind, Zod, Zustand.
- **LotoPetsPlay** — Betting platform based on Venezuela's animal-based lottery game, featuring real-time game logic and user management. NextJS, Typescript, Tailwind, Supabase, Zod, Zustand, Testing Library, Vitest.
- **TeHospedo** — Hotel and inn booking platform for Venezuela, with location-based search and availability management. NextJS, Tailwind, Redux, Vitest, Supabase, Typescript.
- **Academia Eudalio Arriaga** — Registration page for the football academy of former professional player Eudalio Arriaga. Astro, Typescript, Tailwind.
- **VFX Ayverson** — Professional portfolio for a video designer and editor, showcasing a work gallery and personal brand presentation. Astro, Tailwind, Typescript.
- **Revil** — Platform for offering social media followers and engagement services. Astro, Tailwind.

EDUCATION

Front End Development — MAKAlA (Dec 2022)

Ongoing self-directed learning across modern frontend technologies and the JavaScript/TypeScript ecosystem.

LANGUAGES

Spanish — Native • English — B2 (Upper-Intermediate)
